

## **RAJA R — Cyber Security / SOC Analyst**

Phone: 97873 62199 | Email: leviraja670@gmail.com | Location: Viluppuram, Tamil Nadu

### **Professional Summary:**

Cyber Security and SOC-focused analyst skilled in monitoring, threat detection, incident response, log analysis, and vulnerability assessment. Strong foundation in SIEM tools, Linux security, digital forensics, network defense, and security automation. Known for analytical reasoning, documentation accuracy, and rapid problem resolution in high-pressure environments.

### **Technical Skills:**

SOC Monitoring, SIEM Alert Analysis, Incident Response, Threat Intelligence, Log Analysis, Linux Security, Windows Security, Digital Forensics, Malware Indicators, MITRE ATT&CK, Networking Fundamentals, Python Scripting, Nmap, Burp Suite, Wireshark, Security Auditing.

### **Highlighted Projects:**

Log Monitoring Automation Tool (Python)

Developed Python-based automation to parse logs, detect anomalies, generate alerts, and summarize security events for rapid triage.

Cyber Forensics Case Study

Performed disk imaging, file recovery, metadata extraction, and chain-of-custody reporting. Prepared forensic documentation aligned with legal and investigative standards.

### **Experience:**

Freelance Security Projects (2021-2025)

Performed vulnerability checks, system hardening, network diagnostics, log reviews, incident tracing, and basic SOC reporting. Assisted clients with security awareness, password policy enforcement, and secure configuration guidance.

### **Education:**

MSc Cyber Forensics and Information Security
